moisture. 15.Do not expose apparatus to dripping or splashing and do not place objects filled with liquids, such as vases, on the apparatus. SONOS USER GUIDE Five The high-fidelity speaker for superior sound— • Three woofers provide deep bass within a sealed architecture that eliminates reverb and echo. Two side tweeters create an ultra wide
soundstage while a center tweeter optimizes vocal playback. • Use the line-in port to connect your turntable or another device—simple control with the Sonos S2 app or Apple AirPlay 2. • Versatile design with smart orientation sensing. Pair two speakers horizontally and Five automatically separates the left and right channels for impressive stereo
sound. When paired vertically, each smartly adjusts to mono for more detailed stereo separation and an even wider soundstage. • Pair two Fives for left-right stereo sound or use two Fives as rear surrounds for your home theater.
your Sonos system. Note: The front grille is not removable. Tampering with the grille may result in damage to your Five. Touch controls SONOS USER GUIDE Controls and lights Note: If you don't want anyone (like a child) to control playback or change the volume using the speaker touch controls, you can disable them in the room's settings. Volume
control Touch and hold to guickly change the volume: • Volume up (right) • Volume down (left) Play/Pause • Press once to play or pause music. • Press and hold to add the music that's playing in another room. Next/Previous song. Note: You can't
skip forward or go back when listening to a radio station. Status light Indicates the status. Learn more If the light is distracting, you can turn it off in your room's settings. SONOS USER GUIDE Connector panel Select a location You can put your speaker just about anywhere. For maximum performance, we have a few guidelines: • The Five is a
substantial and powerful speaker and should be placed on a flat surface that is robust and durable enough to properly support it. Make sure Five's rubber feet sit completely on the flat surface. • Allow at least 2" perimeter all around Five including its power cord. • For a single Five speaker we recommend positioning the speaker horizontally to
enable stereo sound. Join button Press to connect during setup. Ethernet cable if you want to connect to a router, computer, or network-attached storage (NAS) device (optional). AC power (mains) input Use only the supplied power cord (using a third-party power cord will void your warranty). Note: Insert the power cord firmly
until it is flush with the bottom of the speaker. Stereo audio in (3.5mm / 1/8") Use to connect external music players. AC power (mains) input Join button Ethernet port Stereo audio in SONOS USER GUIDE • Place Five across the room from where you'll be listening (at or close to your ear height for best results). • For stereo pair placement
information, see Stereo pairs. • The Five is humidity resistant so you can use it in the bathroom; however it is not water resistant so don't position it near water or leave it outside during a rain storm. Speaker mounts and stands For wall mount kits or stands, tailored to perfectly fit your Sonos products, see Accessories on our website. Follow the
instructions in the kit. Line-in Connect an external source like a phono preamp (your turntable may have a built-in phone preamp), or other audio device. Learn more. Specifications Feature Description Audio Amplifier Six Class-D digital amplifiers perfectly tuned to match the six dedicated speaker drivers and the acoustic architecture. Tweeter Three
tweeters create the crispest and clearest high-frequency response. Mid-Woofer Three mid-woofers ensure you'll hear the faithful playback of mid-range vocal frequencies plus deep, rich bass—without distortion, even at high volumes. Phased Speaker Array (three drivers on top and three on the bottom) Creates a wide stereo soundstage that directs
the sound left, right, and center. Stereo Pair Turn two speakers into separate left and right channel speakers to create wider, deeper sound. SONOS USER GUIDE Roam Sonos Roam is the portable smart speaker for listening at home and on the go. • Enjoy up to 10 hours of continuous playback on a single charge—when it's time to recharge, connect the included cable to a USB power source (7.5W minimum; 10W recommended), places
Roam on a compatible Qi wireless charger, or magnetically snap Roam to its custom wireless charger (sold separately). • Lightweight, durable, waterproof design is ideal for the beach, pool parties, and more. • Stream content over WiFi or Bluetooth®. • Easy voice control with Amazon Alexa and Google Assistant built right in. • Set up and control
with the Sonos app (for Android and iOS). • Compatible with your other S2 Sonos speakers for multi-room listening. • See Getting started when you're ready to add Roam to your Sonos system. Status light Microphone light Battery light (off when charged) Volume control Volume control Play/Pause SONOS USER GUIDE USB-C port Power/Bluetooth
button SONOS USER GUIDE Controls and lights Volume down (-) Note: Press and hold to group with other speakers. Continue holding the button down to move the sound to and from your nearest
Sonos speaker. • Double press for next track. • Triple press for previous track. Note: You can't skip forward or go back when listen- ing to a radio station. Microphone Press the microphone button to turn the microphone on or off. If you have a voice assistant, voice control is on when the light is on—when the light is off, voice control is off. Status light
Indicates the speaker's status. • Solid white: on. • Blinking blue: Bluetooth pairing mode. • Solid blue: connected with device via Bluetooth. • Flashing orange: if the product to a cooler location, away from direct sunlight. Learn more Battery light Indicates
the battery status. • Blinking orange: low battery is. The battery will continue to charge when the light turns off. Learn more Note: Roam's remaining battery life is always visible in the Sonos app. Battery Saver: To save battery life, you can set
Roam to power off automatically instead of going to sleep. Go to > System, and choose Roam. It won't appear in the Sonos app until it's powered back on. Learn more SONOS USER GUIDE Back Charging Location and usage guidelines You can use your speaker just about anywhere. Here are a few things to keep in mind: • When the microphone is
on, Roam tunes itself with automatic Trueplay™ for amazing sound no matter where you are and what you're listening to. • You can place Roam next to a wall or on a shelf—for best performance, leave at least 1" (2.5 cm) space around the back of the speaker. • Roam's durable design includes silicone end caps to protect the speaker if it's dropped or
bumped. • For optimal performance, avoid placing Roam in direct sunlight. • Roam can be placed horizontally or vertically. When vertical, Roam takes up barely any room. Position it horizontally for added stability on uneven surfaces. USB-C port Use the included cable to connect a compatible 7.5W minimum (10W recommended) USB-A power
source. Power/Bluetooth button Power on/sleep: Press (less than 1 second). To wake Roam up, press any button or start playback from the app. Bluetooth: Press and hold for about 2 seconds until you hear the pairing tone (the second one), then release. The status light blinks blue and Roam is ready to pair. Power off: Long press (5 seconds). USB-C to
USB-A Use the included cable to connect a compatible 7.5W minimum (10W recommended) USB-A power source. (Optional Sonos Wireless Charger (sold separately) Just place Roam on the smooth, magnetized side of the charger for
easy recharging—no extra wires or cables needed. SONOS USER GUIDE Waterproof design Roam has an IP67 rating—it's dustproof and waterproof and
vertically for a few seconds until it drains, then place it face down (logo side down) on a dry towel for a few minutes. 3. Start playing some audio to assist with drainage. Note: Don't play audio when Roam is immersed in water. Automatic Trueplay tuning optimizes the sound for wherever you are and whatever you're listening to. Your
speaker's microphone is used to detect the environment so auto Trueplay can make periodic tuning adjustments to deliver the best sound. Microphone on or off—the microphone is used for voice control, and for automatic Trueplay tuning. Press to turn the microphone on or off—the microphone is used for voice control, and for automatic Trueplay tuning.
listening. When the microphone light is on, • If you have a voice assistant, voice control is on and your voice assistant is ready to respond. • Auto Trueplay tuning is enabled so Roam can automatically adjust its sound for your surroundings. When the microphone light is off, • If you have a voice assistant, voice control is off—your voice assistant is not
listening. • Automatic Trueplay tuning is disabled. Bluetooth on in your device settings. 2. Press and hold the power button on Roam for about 2 seconds until you hear the pairing tone (the second one), then release. The status light blinks blue and Roam is ready to pair. 3. Choose Roam from the list of available devices in
your Bluetooth settings. Your device will automatically connect to Roam next time. Accessories For add-ons tailored to perfectly fit your Roam, see Accessories on our website. not block any ventilation openings. Install in accordance with the manufacturer's instructions, 8.Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat. 9.Protect the power cable from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit
from the apparatus. 10.Only use attachments/accessories specified by the manufacturer. 11.Unplug this apparatus during lightning storms or when unused for long periods of time. 12.Refer all servicing to Sonos qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cable or plug is
damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. 13. The Mains plug should be readily available to disconnect the equipment. 14. Warning: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or
moisture. 15.Do not expose apparatus to dripping or splashing and do not place objects filled with liquids, such as vases, on the apparatus. SONOS USER GUIDE Five The high-fidelity speaker for superior sound— • Three woofers provide deep bass within a sealed architecture that eliminates reverb and echo. Two side tweeters create an ultra wide
soundstage while a center tweeter optimizes vocal playback. • Use the line-in port to connect your turntable or another device—simple control with the Sonos S2 app or Apple AirPlay 2. • Versatile design with smart orientation sensing. Pair two speakers horizontally and Five automatically separates the left and right channels for impressive stereo
sound. When paired vertically, each smartly adjusts to mono for more detailed stereo separation and an even wider soundstage. • Pair two Fives for left-right stereo sound or use two Fives as rear surrounds for your home theater.
your Sonos system. Note: The front grille is not removable. Tampering with the grille may result in damage to your Five. Touch controls SONOS USER GUIDE Controls, you can disable them in the room's settings. Volume
control Touch and hold to quickly change the volume: • Volume up (right) • Volume down (left) Play/Pause • Press once to play or pause music. • Press and hold to add the music that's playing in another room. Next/Previous song • Swipe right across the touch controls to skip to the next song. • Swipe left to go to the previous song. Note: You can't
skip forward or go back when listening to a radio station. Status light Indicates the status. Learn more If the light is distracting, you can turn it off in your room's settings. SONOS USER GUIDE Connector panel Select a location You can turn it off in your room's settings.
enable stereo sound. Join button Press to connect during setup. Ethernet cable if you want to connect to a router, computer, or network-attached storage (NAS) device (optional). AC power (mains) input Use only the supplied power cord (using a third-party power cord will void your warranty). Note: Insert the power cord firmly
until it is flush with the bottom of the speaker. Stereo audio in (3.5mm / 1/8") Use to connect external music players. AC power (mains) input Join button Ethernet port Stereo audio in SONOS USER GUIDE • Place Five across the room from where you'll be listening (at or close to your ear height for best results). • For stereo pair placement
instructions in the kit. Line-in Connect an external source like a phono preamp (your turntable may have a built-in phone preamp), or other audio device. Learn more. Specifications Feature Description Audio Amplifier Six Class-D digital amplifiers perfectly tuned to match the six dedicated speaker drivers and the acoustic architecture. Tweeter Three
tweeters create the crispest and clearest high-frequency response. Mid-Woofer Three mid-woofers ensure you'll hear the faithful playback of mid-range vocal frequencies plus deep, rich bass—without distortion, even at high volumes. Phased Speaker Array (three drivers on top and three on the bottom) Creates a wide stereo soundstage that directs
the sound left, right, and center. Stereo Pair Turn two speakers into separate left and right channel speakers to create wider, deeper sound. Home Theater Add two speakers as surrounds for a true surround sound experience. Networking* Wireless Connectivity Connects to WiFi network with any 802.11a/b/g/n 2.4 or 5 GHz broadcast- capable router
Bluetooth Low Energy (BLE) Temporarily connects to your mobile device for first-time set up. Ethernet Port One 10/100Mbps Ethernet port. You can plug a Sonos product directly into your router if your WiFi is unstable. SONOS USER GUIDE * Specifications subject to change without notice. The indicator brightens when the control is activated. SONOS USER GUIDE Roam Sonos Roam is the portable smart speaker for listening at home and on the go. • Enjoy up to 10 hours of continuous playback on a single charge—when it's time to recharge, connect the included cable to a USB power source (7.5W minimum; 10W recommended), place
Roam on a compatible Qi wireless charger, or magnetically snap Roam to its custom wireless charger (sold separately). • Lightweight, durable, waterproof design is ideal for the beach, pool parties, and more. • Stream control with Amazon Alexa and Google Assistant built right in. • Set up and control
with the Sonos app (for Android and iOS). • Compatible with your other S2 Sonos speakers for multi-room listening. • See Getting started when you're ready to add Roam to your Sonos system. Status light Microphone light Battery light (off when charged) Volume control Volume control Play/Pause SONOS USER GUIDE USB-C port Power/Bluetooth
button SONOS USER GUIDE Controls and lights Volume down (-) Note: Press and hold to group with other speakers. Continue holding the button down to move the sound to and from your nearest
Sonos speaker. • Double press for next track. • Triple press for previous track. Note: You can't skip forward or go back when listen- ing to a radio station. Microphone button to turn the microphone on or off. If you have a voice assistant, voice control is on when the light is on—when the light is off, voice control is off. Status light
Indicates the speaker's status. • Solid white: on. • Blinking blue: Bluetooth pairing mode. • Solid blue: connected with device via Bluetooth, away from direct sunlight. Learn more Battery light Indicates
the battery status. • Blinking orange: low battery is. The battery will continue to charge when the light may stay on for several minutes depending on how low the battery life is always visible in the Sonos app. Battery Saver: To save battery life, you can set
Roam to power off automatically instead of going to sleep. Go to > System, and choose Roam. It won't appear in the Sonos app until it's powered back on. Learn more SONOS USER GUIDE Back Charging Location and usage quidelines You can use your speaker just about anywhere. Here are a few things to keep in mind: • When the microphone is
on, Roam tunes itself with automatic Trueplay™ for amazing sound no matter where you are and what you're listening to. • You can place Roam next to a wall or on a shelf—for best performance, leave at least 1" (2.5 cm) space around the back of the speaker. • Roam's durable design includes silicone end caps to protect the speaker if it's dropped or
bumped. • For optimal performance, avoid placing Roam in direct sunlight. • Roam can be placed horizontally or vertical, Roam takes up barely any room. Position it horizontally for added stability on uneven surfaces. USB-C port Use the included cable to connect a compatible 7.5W minimum (10W recommended) USB-A power
source. Power/Bluetooth button Power on/sleep: Press (less than 1 second). To wake Roam up, press any button or start playback from the app. Bluetooth: Press and hold for about 2 seconds until you hear the pairing tone (the second one), then release. The status light blinks blue and Roam is ready to pair. Power off: Long press (5 seconds). USB-C to
USB-A Use the included cable to connect a compatible 7.5W minimum (10W recommended) USB-A power source. (Optional Sonos 10W USB Power Adapter sold separately) Just place Roam on the smooth, magnetized side of the charger for
easy recharging—no extra wires or cables needed. SONOS USER GUIDE Waterproof design Roam has an IP67 rating—it's dustproof and waterproof and
vertically for a few seconds until it drains, then place it face down (logo side down) on a dry towel for a few minutes. 3. Start playing some audio to assist with drainage. Note: Don't play audio when Roam is immersed in water. Automatic Trueplay™ Auto Truepl
speaker's microphone is used to detect the environment so auto Trueplay can make periodic tuning adjustments to deliver the best sound. Microphone on or off—the microphone is used for voice control, and for automatic Trueplay tuning. Press to turn the microphone on or off—the microphone is used for voice control, and for automatic Trueplay tuning.
listening. When the microphone light is on. • If you have a voice assistant, voice control is on and your voice assistant, voice control is off—your voice assistant is ready to respond. • Auto Trueplay tuning is enabled so Roam can automatically adjust its sound for your surroundings. When the microphone light is off, • If you have a voice assistant, voice control is off—your voice assistant is not
listening. • Automatic Trueplay tuning is disabled. Bluetooth on in your device settings. 2. Press and hold the power button on Roam for about 2 seconds until you hear the pairing tone (the second one), then release. The status light blinks blue and Roam is ready to pair. 3. Choose Roam from the list of available devices in
your Bluetooth settings. Your device will automatically connect to Roam next time. Accessories For add-ons tailored to perfectly fit your Roam, see Accessories on our website. SONOS USER GUIDE Move Move is the durable, battery-powered smart speaker for indoor and outdoor listening. • Rechargeable battery lasts up to 10 hours. Easily recharge by just setting Move on the charging base— no plugs or extra wires required. For
power on the go, use a compatible USB-C charger. • Weatherproof design is ideal for barbecues, pool parties, and more. • Stream content over WiFi or Bluetooth®. • Easy voice control with Amazon Alexa and Google Assistant built right in. • Compatible with all your other Sonos Speakers for multi-room listening. • Works with either Sonos S2 or
Sonos S1 (for Android and iOS). • See Getting started when you're ready to add Move to your Sonos system. Status light Microphone light Join button (WiFi/Bluetooth) Charging base SONOS USER GUIDE Controls and lights Note: If you don't want anyone (like a child) to control playback or change the
volume using the speaker touch controls, you can disable them in the room's settings. Volume down (left). Play/Pause • Press once to play or pause music. • Press and hold to add the music that's playing in another room. Next/Previous • Swipe right across the touch
controls to skip to the next song. • Swipe left to go to the previous song. Note: You can't skip forward or go back when listening to a radio station. Microphone indicator Tap the microphone indicator Tap the microphone indicator Tap the microphone indicator Tap the microphone on or off. • When the light is on, auto Trueplay tuning is enabled. If you have a voice service set up, voice control is also on. • When
the light is off, voice control and auto Trueplay are off. Status light Indicates the battery status. • Blinking orange: low battery. • Solid orange: charging. The light may stay on for several minutes depending on how low the
battery is. The battery will continue to charge when the light turns off. Learn more Note: Move's remaining battery life, you can set Move to power off automatically instead of going to sleep. Go to > System, and choose Move. It won't appear in the Sonos app until it's powered back
on. Learn more SONOS USER GUIDE Back Charging Select a location You can put your speaker just about anywhere—auto Trueplay tuning periodically balances the sound for wherever you are and whatever you're listening to. The microphone has to be on for
automatic tuning so if you don't leave the microphone on all the time, turn it on for a few minutes whenever you move your speaker so it can automatically adjust the sound for your new surroundings. • Move sounds great even when placed next to a wall or on a shelf. For best performance, leave at least 1" (2.5 cm) space around the back of the
```

```
speaker. • It's ultra durable. With a tough outer shell and IP56 rating, Sonos Move is built to withstand falls, bumps, Join button Press to connect to your Sonos system during setup. USB-C port Use a compatible USB-C charger for charging on the go. • USB port may also be used for diagnostic purposes. (It can't stream large data files, like some
music files). Note: USB-C cable not included. Power button Press to power on; short press to power off. If Move is off the charging base, it goes to sleep to save battery when you're not using it. Just press the power button to wake it up. Bluetooth/WiFi toggle button Toggles between Bluetooth and WiFi. Use WiF
for setup; stream content over WiFi or Bluetooth®. Handle Allows for easy lifting and carrying so you can take the speaker wherever you go. Charging base (included) • Just set Move on the charging base for easy recharging—no extra wires or cables needed. • Make sure the speaker is seated properly in the base and the charging contacts are
touching. • Charging base is for indoor use only—be sure to keep it dry. Note: Move's remaining battery life is always visible in the Sonos app. AC power 100-240 VAC, \sim 50/60 Hz, 1.2 A. Output: 18.0 VDC, 2.5 A, 45.0W USB port for charging on the go Use a compatible USB-C charger (type C PD power with 45W, 20V/2.25A) SONOS USER GUIDE
moisture, dust, UV rays, and extreme temperatures. Just don't leave it out in a soaking rain storm, and remember that the charging base that's included is for indoor use only. • Don't use or store your Sonos Move upside down. Automatic Trueplay tuning optimizes the sound for wherever
you are and whatever you're listening to. Your speaker's microphone is used to detect the environment so auto Trueplay can make periodic tuning adjustments to deliver the best sound. If you don't want the microphone on all the time, be sure to turn it on whenever you move the speaker. Your Sonos Move starts retuning when you pick it up, and
continues to adjust the sound for a few minutes after you place it in a new location. Microphone on or off. When the microphone is used for voice control, and for auto Trueplay tuning. Touch to turn the microphone on or off. When the microphone on or off. When the microphone on or off.
Trueplay tuning is enabled so Move can automatically adjust its sound for your surroundings. When the microphone light is off, • If you have a voice assistant, voice control is off. • Auto Trueplay tuning is disabled. Switch modes Set Move up on your WiFi, then use the mode switch on the back of Move to switch between Bluetooth and WiFi. When you
use Bluetooth for the first time, you'll need to pair Move with your device. Once paired, they'll reconnect automatically next time. Bluetooth on in your device settings. 2. Press the mode button on the back of Move to switch to Bluetooth. 3. Choose Move from the list of available devices in your Bluetooth settings. If it's not
there, press and hold the mode button and choose Move from the list when it appears. You'll hear a confirmation tone when your device is paired with Move. They'll automatically connect next time you switch Move to Bluetooth. Accessories For add-ons tailored to perfectly fit your Move, see Accessories on our website. SONOS USER GUIDE

attached storage (NAS) device (optional). HDMI port Use to connect Sonos Arc to your TV. SONOS USER GUIDE Connect the power cord firmly into Arc's power port until it's fully connected. 2. Plug the other end into a power outlet. Caution: Use only the supplied power cord (using a third-party power cord will void your
warranty). Power port SONOS USER GUIDE Connect Sonos Arc to your TV Use the HDMI cable to connect the soundbar to your TV. If your TV doesn't have an ARC or eARC port, you'll need to use the HDMI cable to connect the HDMI cable 
your TV: • If your TV has an HDMI ARC or eARC port, plug the HDMI cable directly into the TV port labeled ARC, eARC, or ARC/eARC. • If your TV doesn't have an HDMI ARC or eARC HDMI ARC is a special port that looks like a
standard HDMI port—it may be on the back or side of your TV. The ports look similar, but the ARC port will be labeled ARC, eARC, or ARC/eARC. If you connect Sonos Arc to a standard HDMI port instead, you won't have an ARC port, use the optical audio adapter (included) to connect Sonos Arc to your TV's
Digital audio out. HDMI cable HDMI ARC or eARC port
